## My Energy Plan

*"My mom still talks excitedly about your thermal imaging gun and the difference it made in improving the warmth of my home. God bless you!" — Deneen in Cincinnati*

*"Home Energy Checkup provided many productive, useful insights to help us conserve energy, make our home more comfortable, and save on utility bills." — Jodi in Cincinnati*

*"Home Energy Checkup has so many tools that they are like a 'MacGyver' for homes!" — John in Montgomery, Ohio*

*"Thank you for guiding us through My Energy Plan. We all learned and benefited from your knowledge." — Patti in Dayton*

*"Thank you, Home Energy Checkup. Based on your electrical load analysis, I am going to install a pool timer. It doesn't cost much, it's an uncomplicated installation, and it will have a one-month payback." — Gary in Harrison, Indiana*

*"I received the summary report that included all the pictures of our attic. You were very detailed, and I really appreciate it! I love having all the photos. I'm keeping them in a folder for my information and home resale purposes." — Paula in Cincinnati*

*"Before you came out, we had our utility company perform a "free" audit. You would have to be brain-dead to get anything out of their audit. Your knowledge and data analysis, however, clearly prioritized our home's needs." — Steve in Cincinnati*

---

## Energy Makeover

*"Our gas bills have been cut in half." — Steve in Liberty Township, Ohio*

*"Our upstairs is now warm, and the attic, which used to be an oven in winter, is cold. Our gas bill has gone down significantly since you did your work." — Tom in Middletown, Ohio*

*"Our HVAC company could not figure out what was causing our discomfort, but they did propose a new HVAC system. You quickly found ductwork problems they missed. We noticed a huge improvement in comfort even as you were working in the attic. We will definitely recommend your services to others in the neighborhood who have similar problems in their new homes." — Steve in Liberty Township, Ohio*

*"Our Duke Energy bill for July through August was \$136; last year, before your work, it was \$267. Overall, the house has been very comfortable, much more so than last summer." — Debbie in Indian Hill, Ohio*

*"Not only have our bills decreased dramatically, but everyone also comments how comfortable our place feels after your service. Thank you, Home Energy Checkup!" — Dita in Fairfield, Ohio*

*"Home Energy Checkup found walls in my contemporary home that were completely uninsulated. (We had been using electric heaters to keep this room warm.) They also found cold air returns that were open to the attic. After they resolved these issues, our bills decreased significantly this winter and our comfort level increased." — Beth in West Chester, Ohio*

## Testimonials

### Energy Makeover (continued)

*"We're glad we did all the work with you. It makes a big difference! Any other ideas, let us know." — John in Indian Hill, Ohio*

*"I used to feel cold with our thermostat set at 71 degrees in the winter, I'm now comfortable at 68 degrees. I checked your attic insulation improvements; you really put a lot of insulation up there! Thank you for resolving our comfort and energy issues." — Pat in Ross, Ohio*

*"Our daughter's room is finally warm, and our winter heating bills dropped from \$700 a month to less than \$130. We also love the fact that we heat most of our hot water from the sun. We will definitely recommend your services to our family and friends." — Kae in Hamilton, Ohio*

*"I was very impressed with the quality of your work. I was also surprised that you were able to get the building sealed up tighter than the contract requirements without altering the windows. Not disrupting the historical features of the home was important to me. Thanks!" — Jim in Northside, Ohio*

*"I have given out your name many times. I am thrilled with the work you did for me." — John in Cincinnati*

*"The ends of the house are much warmer now. I am very satisfied with your services and will recommend them to others." — John in Hamilton, Ohio*

*"Thanks for all the good work!" — J in Cincinnati*

### Solar Heating

*"I wanted to go green and save on my utility bills. The solar collectors you installed on my roof are attractive, and the system is very quiet. My summer utility bill has been cut in half!" — Sally in Indian Hill, Ohio*

*"Once you installed the solar hot water heater, we noticed that our backup heater does not even kick in on sunny days. We love it!" — Alan in Hamilton, Ohio*

### ENERGY STAR®

*"Home Energy Check Up goes far beyond providing K Homes with fast and efficient service; they ensure that all our homes meet or exceed strict EPA requirements for ENERGY STAR. Many of our homes score 40 percent more energy efficient than Ohio Code!" — Gene Kopygorodsky, President, K Homes in West Chester, Ohio*

*"Home Energy Checkup has truly been a blessing for me. Their excellent knowledge of energy conservation and ENERGY STAR guidelines have had a huge impact on our homes. Strongly recommend!" — Hollie in Lexington, Kentucky*

### NAHB Green

*"Home Energy Checkup has done an excellent job of educating both our volunteers and me as to what we can do to make our homes more efficient and green." — Dawn Stutz, Executive Director, Clark County Community Habitat for Humanity in Springfield, Ohio*
